THE UNIVERSITY

THE UNIVERSITY

Stanford University at a Glance

On October 1, 1891, the 465 new students who were on hand for opening day ceremonies at Leland Stanford Junior University greeted Leland and Jane Stanford enthusiastically, with a chant they had made up and rehearsed only that morning. Wah-hoo! Wah-hoo! L-S-J-U! Stanford! Its wild and spirited tone symbolized the excitement of this bold adventure. As a pioneer faculty member recalled, "Hope was in every heart, and the presiding spirit of freedom prompted us to dare greatly."

For the Stanford's on that day, the university was the realization of a dream and a fitting tribute to the memory of their only son, who had died of typhoid fever weeks before his sixteenth birthday. Far from the nation's center of culture and unencumbered by tradition or ivy, the new university drew students from all over the country: many from California; some who followed professors hired from other colleges and universities; and some simply seeking adventure in the West. Though there were many difficulties during the first months – housing was inadequate, microscopes and books were late in arriving from the East – the first year foretold of greatness. As Jane Stanford wrote in the summer of 1892, "Even our fondest hopes have been realized."

▼ Ideas of "Practical Education"

Governor and Mrs. Stanford had come from families of modest means and had built their way up through a life of hard work. So it was natural that their first thoughts were to establish an institution where young men and women could "grapple successfully with the practicalities of life." As their thoughts matured, these ideas of "practical education" enlarged to the concept of producing cultured and useful citizens who were well-prepared for professional success. Nearly 116 years later, the university still enjoys the original 8,180 acres (almost 13 square miles) of grassy fields, eucalyptus groves, and rolling hills that were the Stanford's generous legacy, as well as the Quadrangle of "long corridors with their stately pillars" at the center of campus. It is still true, as the philosopher William James said, during his stint as a visiting professor, that the climate is "so friendly ... that every morning wakes one fresh for new amounts of work."

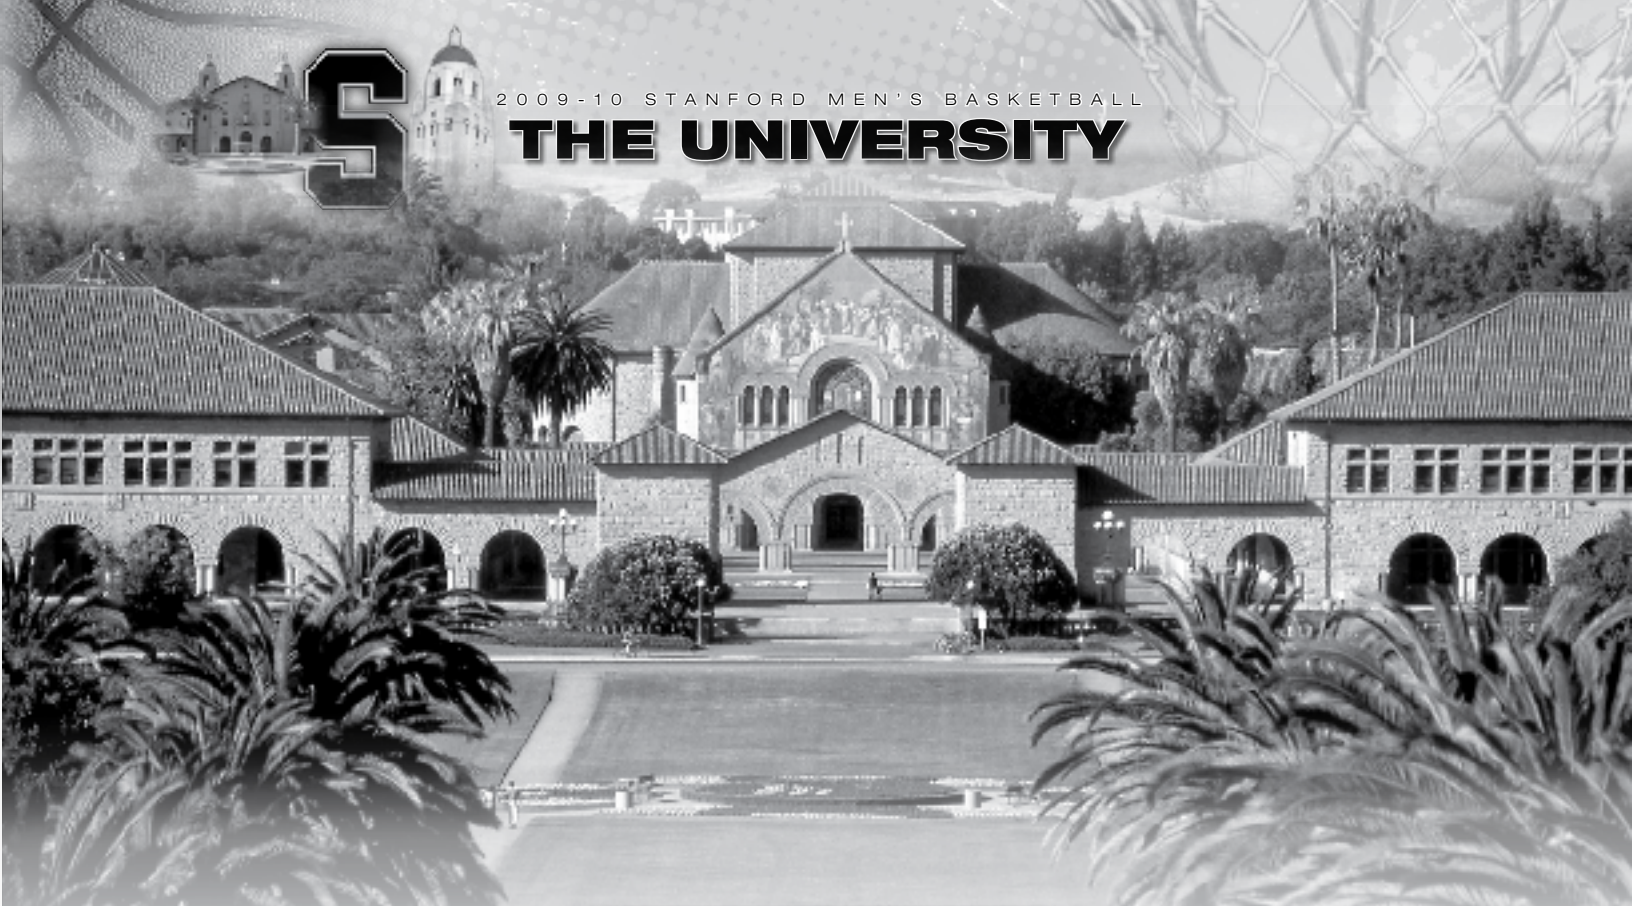
▼ Current Perspectives

In other ways, the university has changed tremendously on its way to recognition as one of the world's great universities. At the hub of a vital and diverse Bay Area, Stanford is less than hour's drive south of San Francisco and just a few minutes north of the Silicon Valley, an area dotted with computer and high technology firms largely spawned by the university's faculty and graduates.

On campus, students and faculty enjoy new libraries, modern laboratories, tremendous sports and recreation facilities, and comfortable residences. Contemporary sculpture, as well as pieces from the Stanford Museum's extensive collection of sculpture by Auguste Rodin, is placed throughout the campus, providing unexpected pleasures at many turns. At the Stanford Medical Center, world-renowned for its research, teaching, and patient care, scientists and physicians are searching for answers to fundamental questions about health and disease. Ninety miles down the coast, at Stanford's Hopkins Marine Station on the Monterey Bay, scientists are working to better understand the mechanisms of evolution, human development, and ecological systems.

The university is organized into seven schools: Earth Sciences, Education, Engineering, the Graduate School of Business, Humanities and Sciences, Law and Medicine. In addition, there are more than 30 interdisciplinary centers, programs, and research laboratories – including the Hoover Institution on War, Revolution and Peace; the Institute for International Studies; the Stanford Linear Accelerator Center; and the Stanford Center for the Study of Families, Children and Youth – where faculty from a wide range of fields bring different perspectives to bear on issues and problems. Stanford's Overseas Studies Program offers students in all fields remarkable opportunities for study abroad, with campuses in Australia, Beijing, Berlin, Cape Town, Florence, Kyoto, Madrid, Moscow, Oxford, Paris, and Santiago.

THE UNIVERSITY



▼ Stanford People

By any measure, Stanford's faculty – which numbers just over 1,800 – is one of the most distinguished in the nation. As of the June of 2007, the faculty included 18 Nobel Laureates, four Pulitzer Prize winners, 24 MacArthur Fellows, 21 recipients of the National Medal of Science, three National Medley of Technology recipients, 228 members of the National Academy of Arts and Sciences, 135 members of the National Academy of Sciences, 83 National Academy of Engineering members, 29 members of the National Academy of Education, seven Wolf Foundation Prize winners, seven winners of the Koret Foundation Prize and three Presidential Medal of Freedom winners. Yet beyond their array of honors, what truly distinguishes Stanford faculty is their commitment to sharing knowledge with their students. The great majority of professors teach undergraduates both in introductory lecture classes and in small advanced seminars.

Currently 14881 students, of which 6689 are undergraduates, live and study on campus. A little more than 40 percent come from California, but all 50 states and approximately 68 countries are represented as well. Among undergraduates, approximately 55 percent are African American, Asian American, International, Mexican American, Native American, Native Hawaiian or Other Hispanic in ethnicity. Like the faculty, the Stanford student body is distinguished. Approximately 10 students apply to Stanford for every place in the freshman class with 89% of those admitted finishing in the top 10% of their high school class. Ninety-four Stanford students have been named Rhodes Scholars, 74 have been selected Marshall Award winners, and 49 have been chosen Truman Scholars. Nearly 90 percent of graduating seniors plan to attend graduate or professional schools. Stanford students also shine in a tremendous array of activities outside the classroom – from student government to music, theater, and journalism. Through the Haas Center for Public Service, students participate in many community service activities, such as tutoring programs for children in nearby East Palo Alto, the Hunger Project, and the Arbor Free Clinic.

In the athletic arena, Stanford students have enjoyed tremendous success as well. Stanford fields teams in 36 Division I varsity sports (15 men, 20 women, 1 co-ed). Of Stanford's 95 NCAA titles (107 national), 55 have been captured since 1990, by far the most in the nation. Thirty-eight of Stanford's athletes and coaches participated win the 1992 Olympics in Barcelona, 49 competed in Atlanta at the 1996 Games, 34 represented Stanford at the 2000 Games in Sydney, and 43 Stanford associates competed at the 2004 Games in Athens. Intramural and club sports are also popular; over 1,000 students take part in the club sports program, while participation in the intramural program has reached 9,000, with many students active in more than one sport.

▼ Looking Ahead

In her address to the Board of Trustees, in 1904, Jane Stanford said, ". . . Let us not be afraid to outgrow old thoughts and ways, and dare to think on new lines as to the future of the work under our care."

Her thoughts echo in the words of former Stanford President Gerhard Casper, who has said, "The true university must reinvent itself every day . . . At Stanford, these are days of such reconsideration and fresh support for our fundamental tasks – teaching, learning, and research."

THE UNIVERSITY

John Hennessy

University President

John L. Hennessy joined Stanford's faculty in 1977 as an assistant professor of electrical engineering. He rose through the academic ranks to full professorship in 1986 and was the inaugural Willard R. and Inez Kerr Bell Professor of Electrical Engineering and Computer Science from 1987 to 2004.

From 1983 to 1993, Dr. Hennessy was director of the Computer Systems Laboratory, a research and teaching center operated by the Departments of Electrical Engineering and Computer Science that fosters research in computer systems design. He served as chair of computer science from 1994 to 1996 and, in 1996, was named dean of the School of Engineering. As dean, he launched a five-year plan that laid the groundwork for new activities in bioengineering and biomedical engineering. In 1999, he was named provost, the university's chief academic and financial officer. As provost, he continued his efforts to foster interdisciplinary activities in the biosciences and bioengineering and oversaw improvements in faculty and staff compensation. In October 2000, he was inaugurated as Stanford University's 10th president. In 2005, he became the inaugural holder of the Bing Presidential Professorship.

A pioneer in computer architecture, in 1981 Dr. Hennessy drew together researchers to focus on a computer architecture known as RISC (Reduced Instruction Set Computer), a technology that has revolutionized the computer industry by increasing performance while reducing costs. In addition to his role in the basic research, Dr. Hennessy helped transfer this technology to industry. In 1984, he cofounded MIPS Computer Systems, now MIPS Technologies, which designs microprocessors. In recent years, his research has focused on the architecture of high-performance computers.

Dr. Hennessy is a recipient of the 2000 IEEE John von Neumann Medal, the 2000 ASEE Benjamin Garver Lamme Award, the 2001 ACM Eckert-Mauchly Award, the 2001 Seymour Cray Computer Engineering Award, a 2004 NEC C&C Prize for lifetime achievement in computer science and engineering and a 2005 Founders Award from the American Academy of Arts and Sciences. He is a member of the National Academy of Engineering and the National Academy of Sciences, and he is a fellow of the American Academy of Arts and Sciences, the Association for Computing Machinery, and the Institute of Electrical and Electronics Engineers.

He has lectured and published widely and is the co-author of two internationally used undergraduate and graduate textbooks on computer architecture design. Dr. Hennessy earned his bachelor's degree in electrical engineering from Villanova University and his master's and doctoral degrees in computer science from the State University of New York at Stony Brook.

John Etchemendy

University Provost

John Etchemendy was named Stanford's Provost on September 1, 2000. He has been a faculty member in the Department of Philosophy since 1983 after receiving his doctorate at Stanford in 1982. He is also a faculty member of the Symbolic Systems Program and a senior researcher at the Center for the Study of Language and Information.

Etchemendy, whose research interests include logic, semantics and the philosophy of language, has challenged orthodox views on the central notions of truth, logical consequence and logical truth. His recent work has focused on the role of diagrams and other nonlinguistic forms of representation in reasoning. His latest books are *Language, Proof and Logic* (1999) and *Hyperproof* (1994), both written with the late Jon Barwise. He and Barwise also developed the academic software "Turing's World" and "Tarski's World," as well as the "Hyperproof" software that allows computers to support the human reasoning process.

An exceptionally popular teacher, Etchemendy won the Bing Teaching Award in 1992, the first year it was presented. He was cited for "the most extraordinarily positive testimony from students."

Etchemendy served as senior associate dean in the School of Humanities and Sciences from 1993 to 1997. He was director of the Center for the Study of Language and Information prior to that. He was deputy chair of the search committee that nominated John Hennessy to be Stanford's 10th president. He also chaired the Commission on Technology in Teaching and Learning that President Gerhard Casper established to explore ways to enhance traditional teaching methods through technology. Etchemendy served on the advisory board of the Academic Council in 1998-99, and has been a freshman adviser.

Etchemendy was born in Reno, Nev., and earned his bachelor's and master's degrees at the University of Nevada, Reno. He was a lecturer at Princeton University from 1981 to 1982 and an assistant professor there from 1982 to 1983.

He is a member of the American Philosophical Association, on the governing council of the Association for Symbolic Logic, an editor of the *Journal of Symbolic Logic*, and on the editorial boards of *Synthese* and *Philosophia Mathematica*.

Ellen Markman

Athletics Faculty Representative

Ellen M. Markman, the Lewis M. Terman Professor of Psychology, serves as Stanford's faculty athletic representative.

After receiving her Ph.D. from the University of Pennsylvania in 1973, she was on the faculty at the University of Illinois before joining the Stanford faculty in 1975. Professor Markman was chair of the Department of Psychology from 1994-1997 and served as Cognizant Dean for the Social Sciences from 1998-2000. In 2003 she was elected to the American Academy of Arts and Sciences and in 2004 she was awarded the American Psychological Association's Mentoring Award.

Professor Markman's research has covered a range of issues in cognitive development including work on comprehension monitoring, logical reasoning and early theory of mind development. Much of her work has addressed questions of the relationship between language and thought in children focusing on categorization, inductive reasoning, and word learning. One current research project aims to lay the groundwork for a preschool curriculum on nutrition.

THE UNIVERSITY

Bob Bowlsby

The Jaquish & Kenninger Director of Athletics

One of the most respected athletic administrators in the nation, Bob Bowlsby enters his fourth full year as the Jaquish & Kenninger Director of Athletics at Stanford University, a position he was appointed to on April 25, 2006 after spending 15 years at the helm of the University of Iowa's athletic program. In his initial three years in the position, Stanford has continued its well-earned reputation of fielding the most successful and wide-ranging Division I-A athletic programs in the nation.

As Stanford's sixth athletic director, Bowlsby succeeds Ted Leland (1991-2005), Andy Geiger (1979-90), Joe Ruetz (1972-78), Chuck Taylor (1963-71) and Al Masters (1925-63). He directs a department that includes 35 intercollegiate varsity teams – 15 men's, 19 women's and one coed – plus the physical education department, intramurals, club sports, open recreation and the Stanford Golf Course.

Under his administrative guidance, Stanford claimed its unprecedented 15th straight Learfield Sports Director's Cup last spring, emblematic of the top overall program in the country. Ten Stanford teams boasted Top 10 finishes, winning national championships in men's gymnastics and women's rowing.

Stanford's student-athletes were also highly-decorated last year. Foluke Akinradewo (women's volleyball) earned her second straight national player of the year honor while eight student-athletes earned conference player of the year marks. In addition, Erik Shoji men's volleyball) earned national freshmen of the year accolades.

Two Stanford coaches--Thom Glielmi (men's gymnastics) and Yaz Farooq (women's rowing) earned national coach of the year marks.

Throughout his career, Bowlsby has emerged as a national leader in intercollegiate and amateur athletics. He was named in February, 2007, to the United States Olympic Committee Board of Directors.

He has previously served as President of the NCAA Division I-A Athletic Directors' Association (2002-03), Chair of the NCAA Division I Men's Basketball Committee for two years (2003-05) and a committee member for five years, Chair of the Big Ten Administrator's Council (2002-04) and Chair of the NCAA Management Council.

Bowlsby was appointed by President George Bush as a member of the Commission on Opportunities in Athletics in 2002-03. The committee was led by U.S. Secretary of Education Rod Paige.

Bowlsby was elected chair of the NCAA Olympic Sports Liaison Committee and represented the NCAA as one of two voting members on the United States Olympic Committee Board of Directors. He served as a member of the NCAA/U.S. Olympic Committee Task Force chaired by Cedric Dempsey and George Steinbrenner.

In addition, Bowlsby served as chair of the NCAA Wrestling Committee and has served on NCAA committees on Financial Aid and Amateurism, the Special Committee to Review Amateurism Issues and the Special Committee to Review Financial Conditions in Athletics.

Bowlsby has also served as an Executive Committee member with both the National Association of Collegiate Directors of Athletics and the Division I-A Athletic Directors Association and served as President of the I-A organization for two years.

The National Association of Collegiate Directors of Athletics (NACDA) named Bowlsby in 2001-02 as Central Region Athletic Director of the Year and Sports Business Journal selected him from the four regional award winners as the National Athletics Director of the Year. The award highlights the efforts of the athletic directors for their commitment and positive contributions to campuses and their surrounding communities.

As the chief administrator for Iowa's athletic department from 1991-2006, Bowlsby earned a reputation as one of the most admired, energetic and ambitious athletic administrators in the nation. Bowlsby guided and supervised the merger of the Hawkeye's women's and men's athletics departments while enabling Iowa to maintain its standing as one of the most visible and successful Division I athletic programs.

Under his leadership, Iowa enjoyed unprecedented success and growth in the area of fund raising and facilities. Bowlsby and the UI Development staff put in place $25 million in endowments to help support Hawkeye student-athlete scholarship aid. In addition, he managed the planning and construction of $120 million in facility projects on campus, including an $87 million renovation to Kinnick Stadium.

A native of Waterloo, Iowa, Bowlsby became Iowa's 10th Athletic Director in June, 1991, after serving in the same role at the University of Northern Iowa since 1984. Bowlsby earned his bachelors degree from Moorhead State University (Minnesota) in 1975 and his master's degree from the University of Iowa in 1978.

Bob and his wife, Candice, have four children: Lisa, Matt, Rachel and Kyle.

Principles That Guide Us

Department of Athletics, Physical Education, and Recreation

Department of Athletics, Physical Education, and Recreation

MISSION STATEMENT

From its founding in 1891, Stanford University's leaders have believed that physical activity is valuable for its own sake and that vigorous exercise is complementary to the educational purposes of the university. Within this context for human development, it is the mission of Stanford's Department of Athletics, Physical Education and Recreation to offer a wide range of high quality programs which will encourage and facilitate all participants to realize opportunities for championship athletic participation, physical fitness, health and well being.

▼ We Will Teach

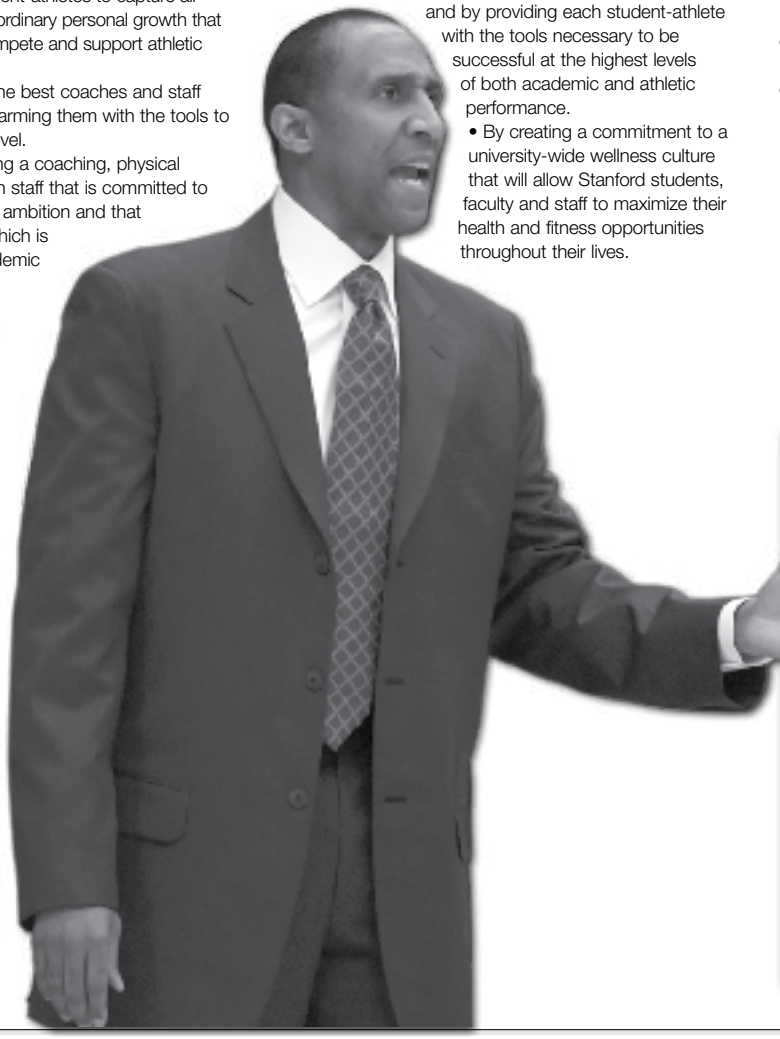
- By encouraging our student-athletes to capture all the joy, power and extraordinary personal growth that comes to those who compete and support athletic excellence.
- By hiring and retaining the best coaches and staff members available and arming them with the tools to achieve at the highest level.
- By fostering and nurturing a coaching, physical education and recreation staff that is committed to teaching with integrity & ambition and that performs in a manner which is consistent with the academic priorities of Stanford University.
- By recognizing the need to work as a team while valuing each individual's unique characteristics and abilities.
- By committing ourselves to the personal development and well being of our student-athletes and staff. Those who participate at all levels will learn the benefits of teamwork, discipline, goal setting, physical fitness, healthy lifestyles, character development, self confidence, sportsmanship, and an appreciation for lifelong learning.

▼ We Will Lead

- By being the model of success, of universal opportunity, and of unwavering commitment to the ideal of the scholar-athlete.
- By operating with integrity as we follow the spirit and the letter of each rule. Integrity will be displayed in our policies, performances and programs.
- By continuing our long history of conference and national prominence through a commitment to cutting edge involvement in athletic issues.

▼ We Will Win

- By maximizing our effort in every competition, on every team and in every setting where skill, determination and hard work combine to achieve singularly successful results.
- By having an uncompromising commitment to Conference and National championships and by providing each student-athlete with the tools necessary to be successful at the highest levels of both academic and athletic performance.
- By creating a commitment to a university-wide wellness culture that will allow Stanford students, faculty and staff to maximize their health and fitness opportunities throughout their lives.



▼ We Will Serve

- By respecting, honoring and responding to the needs of our student-athletes, coaches, colleagues, advocates and members of our larger community.
- By encouraging innovation and creativity. We will harness technology to extend our reach and to interface with our various internal and external constituencies.
- Through fiscal responsibility in all elements of departmental operations.
- By advancing outreach as a fundamental component of the department, we will strive to enhance the overall mission of the University through competitive excellence, effective outreach and an on-going commitment to customer service.
- By utilizing the department resources and physical facilities to serve the campus community, our alumni and our supporters throughout the world.
- By valuing our heritage, and in doing so we commit ourselves to championship caliber athletic achievement and the on-going enhancement of the traditions of Stanford Athletics, including leadership, individual and team achievement & intense pride and loyalty.

Academic Services

▼ Academic Services for Student-Athletes

The goal of the Athletic Academic Resource Center (AARC) is to help each Stanford student-athlete realize their full academic potential. The AARC is staffed with two advisors/counselors, who help student-athletes perform the arduous task of balancing their academic and athletic lives. The AARC provides study table, tutoring, advising and counseling, computer access, Partners for Academic Excellence (PAE) and laptop computer checkout.

The AARC staff provides students with both short and long-term academic counseling and serves as a back-up to the student's assigned advisor. The short-term goals of the program are to help students choose classes and provide information on professors along with the workload and difficulty of classes; aid student-athletes in scheduling classes around practice and game schedules; and to provide assistance should conflicts arise with exams and competition. The program's long-term goals involve helping students choose majors that are consistent with their interests and goals and ensure that they fulfill their requirements and are on course to graduate in four years; and offer guidance regarding graduate and professional school opportunities.

The AARC staff coordinates a tutoring program which provides student-athletes with help in any class in which they are seeking assistance. The tutors are trained graduates or upperclass students who are available to help student-athletes achieve their academic goals.

Tutoring is not a replacement for student-athletes going to class nor doing their own homework. The tutor's role is to help student-athletes understand the concepts and develop problem-solving skills that will be effective in any given class. Assistance greater than this could be considered a violation of the University's Honor code.

▼ Partners for Academic Excellence

Co-sponsored by Undergraduate Advising & Research (UAR) and the Athletic Department, PAE II assists Stanford student-athletes in managing their demanding schedule and utilizing their limited free time effectively to ensure academic excellence.

By grouping several student-athletes together from different sports based on a similar academic interest, the PAE program focuses on creating an academic community for specific first-year students. Each group has an undergraduate mentor and a graduate school mentor, which are likely to be a current and former student-athlete.

During the autumn quarter, PAE participants meet weekly as a study group to assist with the transition from high school to university study. In the winter, the groups actively explore academic resources. Dinners with faculty members and Stanford alums who may share an academic or career interest are also part of the program. Freshman have the opportunity in a relaxed informal setting to meet and talk with faculty who may be otherwise hard to approach.

▼ Stanford Athletics Rate Highly in APR Data

All 35 of Stanford's athletics programs exceeded the NCAA's Academic Progress Rate standards and six Cardinal teams earned perfect 1000 scores in the fourth annual set of APR numbers released last May by the NCAA.

The 2009 report released by the NCAA features a four-year compilation of APR data from the 2004-05, 2005-06, 2006-07 and 2007-08 academic years and measures the eligibility, retention and graduation of student-athletes competing on every Division I sports team. It also serves as a predictor of graduation success.

Stanford's men's golf, women's gymnastics, softball, women's tennis, women's volleyball and women's water polo programs received perfect 1000 scores. Near-perfect scores came in women's cross country (995), women's field hockey (994), women's lacrosse (997), women's soccer (997), women's swimming and diving (995) and women's track and field (998).

For the second straight year, Stanford's football program received the highest rating among Football Bowl Subdivision programs over a four-year period beginning in 2004-05. The Cardinal received a multi-year APR rating of 984, placing Stanford ahead of Air Force (983), Duke (980), Rutgers (980), Rice (979), Navy (978), Miami, Fla. (977) and Notre Dame (974).

The overall four-year Division I Academic Progress Rate is up three points to 964. Meanwhile, the number of student-athletes earning neither the retention nor the eligibility point continues to decline. Those highlights appear to be the product of a number of rule changes that began in 2003 – including increased progress-toward-degree benchmarks, greater core-course requirements and more stringent standards for transfers.

Stanford's National Titles

NCAA championships are commonplace at Stanford University, as Cardinal teams have won national titles at an unprecedented rate, including a national-best 80 since 1980 and 57 since 1990. Stanford has won at least one NCAA championship for 33 consecutive years and has won four national titles in a single season nine times.

Nine different Stanford teams have won at least five national titles, including men's tennis (18), women's tennis (16), men's water polo (11), women's swimming and diving (9), men's swimming and diving (8), men's golf (8), women's volleyball (6), synchronized swimming (6) and women's cross country (5). A total of 19 Stanford teams have won at least one national championship.

Stanford teams have won a total of 110 national championships. In NCAA competition, Cardinal teams have won 97 team titles, including 59 men's championships and an NCAA-best 38 women's titles.

Head Coach Conrad Ray guided the Cardinal to its eighth NCAA men's golf championship in 2007.

Notable Stanford Alumni

Changing the World

Some of the most distinguished people in the world today are former students at Stanford University. Graduates of Stanford can be found in business, politics, government, entertainment, technology and education among other fields.

Following is a sampling of just some of the more renowned former students who have gone on to gain national and international recognition in their chosen field.

- **Maxwell Anderson, MA 1915**
  Pulitzer Prize-Winning Playwright
- **Samuel Armacost, MBA 1964**
  President and CEO,
  Bank of America
- **Steve Ballmer, MBA 1981**
  CEO, Microsoft
- **Ehud Barak, MS 1979**
  Prime Minister of Israel
- **Max Baucus, 1964, JD '67**
  United States Senator (Montana)
- **Jeff Bingaman, JD 1968**
  United States Senator (New Mexico)
- **Derek Bok, 1951**
  President Emeritus, Harvard University
- **Bob Boone, 1969**
  Assistant General Manager, Washington Nationals; Professional Baseball Player
- **Richard Boone, 1938**
  Actor, Have Gun Will Travel
- **Stephen Breyer, 1959**
  Justice, U.S. Supreme Court
- **Sergey Brin, MS 1995**
  Co-Founder, Google
- **Claude Brinegar, 1950, MS '51, PhD '54**
  Secretary of Transportation

David Filo

YAHOO!

- **William Brody, MD 1970, PhD '72**
  President, Johns Hopkins University
- **David Brown, 1936**
  Producer of The Sting, Jaws and Driving Miss Daisy
- **Gretchen Carlson, 1990**
  Miss America, 1988
- **Vincent Cerf, 1965**
  Called "Father of the Internet" as co-author of Internet Protocol
- **Otis Chandler, 1950**
  Chair, Times Mirror Corp.
- **Warren Christopher, JD 1949**
  Secretary of State
- **Chelsea Clinton, 2001**
  Daughter of President Bill Clinton
- **Jennifer Connelly, 1996**
  Academy Award-Winning Actress for A Beautiful Mind
- **Kent Conrad, 1972**
  United States Senator (North Dakota)
- **Alan Cranston, 1936**
  United States Senator (California)
- **Ted Danson, 1970**
  Actor, Cheers and Becker
- **Gray Davis, 1964**
  Governor of California
- **Richard Diebenkorn, 1944**
  Painter
- **Ray Dolby, 1957**
  Designed noise reduction system synonymous with his name
- **John Elway, 1983**
  Professional Football Player
  Super Bowl MVP
- **Janet Evans, 1991**
  Olympic Gold Medalist, Swimming
- **Dianne Feinstein, 1955**
  United States Senator (California)
- **David Filo, MS 1990**
  Co-Founder of Yahoo!
- **Carleton Fiorina, 1976**
  President and CEO of Hewlett-Packard Co.
- **David Fleming, 1998**
  San Francisco Giants Broadcaster
- **John Gardner, 1935, MA '36**
  Secretary of HEW;
  Founder of Common Cause
- **Vartan Gregorian, 1958**
  President, Carnegie Corporation
  President of Brown University
- **John Harsanyi, MA 1960**
  1994 Winner of Nobel Prize in Economics
- **Richard Hass, PhD 1976**
  1996 U.S. Poet Laureate
- **Reed Hastings, MS '88, AM '98**
  Founder & CEO, Netflix
- **Mark Hatfield, MA 1948**
  United States Senator (Oregon)
- **Edith Head, MA 1920**
  Costume Designer, 8-Time Academy Award Winner
- **Eric Heiden, M.D. 1991**
  5-Time Gold Medalist,
  1980 Winter Olympics
- **Dudley Herschbach, 1954, MS '55**
  1986 Winner of Nobel Prize in Chemistry

Larry Page and Sergey Brin

Jennifer Connelly

Home of Stanford Basketball
MAPLES PAVILION

"It's a tremendous home court advantage. The students are real close to the floor, and they have a real effect. I'd say Stanford is right up there among the toughest places to play."

Former Arizona head coach Lute Olson

One of the best environments for college basketball can be found at Maples Pavilion. Built in 1969, Maples Pavilion has been host to many of the most memorable collegiate games in the nation over recent years.

Maples Pavilion underwent a $26-million renovation that was completed in 2004-05, ushering in a new era of great basketball that benefited both student-athletes and fans alike. Maples Pavilion serves as home for the men's and women's basketball teams, along with women's volleyball program. The men's and women's gymnastics squads also occasionally host home meets in the facility.

The renovation, financed entirely through private donations, has enhanced the college athletic experience for both student-athletes and fans. The facelift included a new covered 29,000-square-foot concourse around the exterior of the seating area, state-of-the-art concession and restroom facilities with speaker systems, in addition to a new four-sided, state-of-the-art, center-hung scoreboard with video and replay capability.

The concourse is physically separated from the original building. The gap between the original building and the new concourse was designed for two reasons: to preserve the integrity of the architectural design and create an open garden feel that is present throughout buildings on the Stanford campus. The renovation also included the new playing court floor, upgraded locker rooms, student-athlete lounges, a state-of-the-art strength and conditioning room and training room, a media workroom, photography office and Courtside Room reserved for banquets.

The seating configuration features a lower bowl seating area that replaced the old floor and loge sections. The new lower seating level includes padded stadium seats that replaced the wood bleachers in the old floor setup. With the upgraded facilities and the improved seating area at floor level, the home team and fans experience the best playing atmosphere in the Pac-10.

Stanford played its first game in Maples Pavilion on Jan. 3, 1969, losing to BYU 95-89. The following night, Stanford rebounded for a 94-78 victory over BYU. The formal dedication game was Mar. 1, 1969, as Stanford dropped a 75-66 decision to USC.

The 7,329-seat structure serves the entire university as a multi-purpose facility. It was originally built at a cost of $3.3 million. It was named after its principal donor, Roscoe Maples, a member of the 1904 Stanford class.

The pavilion is utilized throughout the year by university staff and students for recreational and intramural purposes. In addition to intercollegiate competition, physical education classes are held in Maples Pavilion. The pavilion is also used for banquets and lectures.

Maples Pavilion has earned a reputation as one of the finest facilities in the country, routinely hosting NCAA Championship events. During the 2009-10 campaign, Maples Pavilion will serve as the host site for the following postseason events: NCAA Women's Volleyball Regionals, NCAA Women's Basketball first and second rounds and the NCAA Men's Volleyball Championship.

Sixth Man Club

"One of the best things about Maples Pavilion is the Sixth Man Club and their support of our team. It's a great feeling to hit the court and hear our fans."
Former Stanford guard Mitch Johnson

During the 1993-94 campaign, enthusiasm reached another high level with the introduction of the Cardinal Sixth Man Club, the brainchild of the Stanford athletics marketing department. For $10, a student would get a Cardinal Sixth Man T-shirt, center seats at all Stanford home games and free food before the game at a Palo Alto sports restaurant.

When the Sixth Man Club first started, only 30 students signed on. How times have changed. From 30 members, the club grew to 100, then 350 and almost 2000 during the 2007-08 season.

The Stanford Sixth Man Club is the official student fan club for Stanford men's basketball. The Sixth Man Club is nationally recognized as one of the top student sections. In addition to making Maples one of the most intimidating arenas in the nation, the Sixth Man Club has become one of the most popular activities for Stanford Students.

Former Arizona head coach Lute Olson says Maples Pavilion is a tough environment for visiting teams because of the Sixth Man Club.

"It's a tremendous home court advantage," says Olson. "The students are real close to the floor, and they have a real effect. I'd say Stanford is right up there among the toughest places to play."

The Sixth Man Alumni

To continue its goal of having the best student fan club in the nation, Stanford men's basketball has created the Sixth Man Alumni program. Sixth Man Alumni will have exclusive access to a special allotment of tickets. With Maples Pavilion long sold out for men's basketball games, this program offers a limited number of tickets to former Sixth Man Club Members.

Sixth Man Alumni Club and Lucile Packard Children's Hospital

The Stanford men's basketball program and the Sixth Man Club have adopted Lucile Packard Children's Hospital as one of its priority charities. A special version of the Sixth Man Club shirt can be purchased by the general public at http://store.stanford.edu/6thman. Proceeds benefit the Lucile Packard Children's Hospital at Stanford.

Stanford Traditions

The unique origins of Stanford's mascot and nickname have a history that dates back to the University are founding in 1885. While the Cardinal has always been one of the school's official colors, the nickname has gone through a series of changes, student votes, controversy and confusion.

Since 1981, Stanford has been known as the Cardinal. Stanford was known as the Indians from 1930-72. Stanford does not have an official mascot. The "Tree," which is a member of the Stanford Band, often times is mistaken for the school's mascot.

▼ Nickname

The nickname for Stanford is the Cardinal—in reference to one of the school colors. Stanford's history with its nickname began on March 19, 1891, when Stanford beat Cal in the first Big Game. While Stanford did not have an official nickname at the time, the day after the Big Game local newspapers picked up the "cardinal" theme and used it in the headlines.

Stanford did not have an official nickname until Indians was adopted in 1930. For years prior, the Indian had been a part of the Stanford athletic tradition. Perhaps it grew out of the fact that Cal's mascot was a Bear, or it may have come from the large Indian population of the area, or from the Indian paraphernalia in abundance in the late 1800's. Whatever its origin, it was accepted by sportswriters and gradually gained wide recognition.

Stanford officially adopted the Indian nickname on Nov. 25, 1930 after a unanimous vote by the Executive Committee for the Associated Students. The Indian had long been considered the symbol of Stanford before the official vote, although its origins are only speculation.

The Indian symbol was eventually dropped in 1972 following meetings between Stanford native American students and President Richard Lyman. The 55 students, supported by the other 358 American Indians enrolled in California colleges, felt the mascot was an insult to their culture and heritage. As a result of these talks and the ensuing publicity, the Stanford Student Senate voted 18-4 to drop the Indian symbol, and Lyman agreed.

There was a move to reinstate the Indian as the school mascot in 1975. The debate was put to a vote along with new suggestions, including the Robber Barons, Sequoias, Trees, Cardinals, Railroaders, Spikes and Huns. None of the suggestions were accepted.

From 1972 until November 17, 1981, Stanford's official nickname was Cardinals, in reference to one of the school's colors, not the bird.

Nine years after the Indian was dropped, Stanford still had not decided on a new mascot. President Donald Kennedy declared in 1981 that all Stanford athletic teams will be represented and symbolized exclusively by the color cardinal.

"While various other mascots have been suggested and then allowed to wither, the color has continued to serve us well, as it has for 90 years. It is a rich and vivid metaphor for the very pulse of life."

▼ The Mascot

There is no official mascot of Stanford University. The "Tree," which is member of the Stanford Band, is representative of El Palo Alto, the Redwood tree which is the logo of the city of Palo Alto. Since Stanford and Palo Alto are almost inextricably intertwined in interests and location, it is a natural outgrowth of this relationship. The tree still exits and stands by the railroad bridge beside San Francisquito Creek – it is the site where early explorers first camped when settling the area.

▼ The Colors

When Stanford first accepted students in 1891, the student body actually voted for gold as the school's color, but another student assembly chose Cardinal as the school color. A few days after the vote, local sportswriters picked up the "Cardinal" theme after Stanford defeated Cal in the first Big Game on March 19, 1891. The headlines read, "Cardinal Triumphs O'er Blue and Gold."

Cardinal remained the school color until the 1940's, when the rules committee and conferences started regulating jersey colors for home and visiting football teams. Stanford's Board of Athletic Control adopted white as the second color.

Today, Stanford's official school colors are Cardinal and White.

▼ The Stanford Band

The modern Leland Stanford Junior University Marching Band was formed in 1963 when members of the university's marching band went on strike to protest the firing of the band director. According to lore, the new director, Arthur P. Barnes, immediately won the loyalty of the band by relinquishing any meaningful control over it.

Empowered, the student-led band threw away the traditional marching music and uniforms, eventually settling for a mostly rock and roll repertoire and a simplified uniform consisting of a white fishing hay with red trim, red blazer, black pants and "the ugliest tie you can get your hands on."

The band's repertoire is heavy on classic rock of the 1970s, particularly songs by Tower of Power, Santana, and The Who. In the '90s, more modern music was introduced, including songs by Green Day and The Offspring. The de facto fight song is "All Right Now," originally performed by Free.

One of the first collegiate marching bands to record and release their music, the band has produced thirteen albums since 1967. Arrangements focus on the loudest brass instruments—trumpets, mellophones, and trombones—and percussion—one bass drum (called the Axis of Rhythm), snare drums, and single tenor drums. Many traditional band instruments like bells and glockenspiels are altogether absent.

Traditional "marching" is also missing, as the band "scatters" from one formation to the next. A team of Stanford students, generally not band members, writes a script for the halftime show explaining to some degree what the band is doing in any given formation. The announcer reads this script over the public address system.

▼ The Sounds of Stanford

Over the years, Stanford has associated itself with numerous songs that are entwined with many of the longstanding traditions of the University. The original fight song of Stanford is "Come Join the Band," while the official Alma Mater is "Hail, Stanford, Hail!" "All Right Now," originally performed by Free, was adopted by the Stanford Band as its de facto fight song in the early 1970's. All three songs are regularly heard on Stanford Football Saturdays.

Come Join the Band

Come, join the band,
And give a cheer for Stanford red;
Throughout the land
Our banner waving overhead;
Stanford, for you;
Each loyal comrade brave and true
With might and main sings this refrain,
"Forever and forever Stanford red."

After the game,
When Stanford red has won the day,
Praising her name
Down on the field we'll force our way
And on the green
Each man who joins the serpentine
With might and main sings this refrain,
"Forever and forever Stanford red."

Hail, Stanford, Hail!

Where the rolling hills rise
Up towards the mountains higher,
Where at eve the Coast Range lies
In the sunset fire,
Flushing deep and paling,
Here we raise our voices, hailing
Thee, our Alma Mater

From the foothills to the bay
It shall ring,
As we sing,
It shall ring and float away.
Hail, Stanford, Hail!
Hail, Stanford, Hail!

Tender vista ever new
Through the arches meet the eyes
Where the red roofs rim the skies
Flocked with cloudlets sailing,
Here we raise our voices, hailing
Three, our Alma Mater

When the moonlight-bathed arcade
Stands in evening calms,
When the night wind, half afraid,
Whispers in the palms,
Far-off swelling, failing,
Student voices glad are hailing
Thee, our Alma Mater

Pacific-10 Conference

The Conference of Champions®

The Pacific-10 Conference continues to uphold its tradition as the "Conference of Champions" ®, claiming an incredible 166 NCAA team titles over the past 19 years, including 11 in 2008-09, averaging nearly nine championships per academic year. Even more impressive has been the breadth of the Pac-10's success, with championships coming in 26 different men's and women's sports. The Pac-10 has led the nation in NCAA Championships in 43 of the last 49 years and finished second five times.

Spanning nearly a century of outstanding athletics achievements, the Pac-10 has captured 380 NCAA titles (261 men's, 119 women's), far outdistancing the runner-up Big Ten Conference's 222 titles.

The Conference's reputation is further proven in the annual Learfield Sports Directors' Cup competition, the prestigious award that honors the best overall collegiate athletics programs in the country. Stanford won its 15th-consecutive Directors' Cup in 2008-09, continuing its remarkable run. Eight of the top 25 Division I programs were Pac-10 member institutions: No. 1 Stanford, No. 4 USC, No. 7 California, No. 11 Washington, No. 12 Arizona State, No. 16 UCLA, No. 22 Oregon And No. 24 Arizona. The Pac-10 landed three programs in the top-10, one more than the second-place ACC, Big Ten and SEC (2).

The Pac-10 captured a nation's-best 11 NCAA titles in 2008-09. The total does not include a national title in men's rowing, which Washington claimed by taking top honors at the IRA Championships Regatta. Men's rowing is not a NCAA event.

Seven of the 10 Conference institutions claimed NCAA team titles in 2008-09. NCAA team champions came from Arizona State (women's golf), California (women's swimming), Oregon (men's cross country, men's indoor track & field), UCLA (women's water polo), Stanford (men's gymnastics, women's rowing), USC (men's tennis, men's water polo) and Washington (women's cross country, softball). The Pac-10 also had runners-up in nine NCAA Championship events: women's cross country (Oregon), women's volleyball (Stanford), women's water polo (USC), men's volleyball (USC), women's tennis (California), women's golf (UCLA), women's rowing (California), men's and women's outdoor track & field (Oregon). The Pac-10 also earned a runner-up finish at the IRA men's rowing championship (California). Overall, the conference had 26 teams finish in the top four at NCAA Championship events.

Participation in the postseason was a common occurrence for the Pac-10 in 2008-09. Of the 22 sports sponsored by the Conference, 18 witnessed at least half its teams participating in NCAA or other postseason action. The men sent 63 of a possible 93 teams into the postseason (67.7 percent), while the women sent 65 of a possible 101 teams (64.4 percent).

The roots of the Pacific-10 Conference date back over 90 years to December 2, 1915, when the Pacific Coast Conference (PCC) was founded at a meeting at the Oregon Hotel in Portland, Ore. Original membership consisted of four schools – the University of California at Berkeley, the University of Washington, the University of Oregon, and Oregon State College (now Oregon State University). All still are charter members of the Conference.

Pacific Coast Conference play began in 1916. One year later, Washington State College (now Washington State University), was accepted into the Conference, and Stanford University joined in 1918.

In 1922, the PCC expanded to eight teams with the admission of the University of Southern California and the University of Idaho. Montana joined the Conference in 1924, and in 1928, the PCC grew to 10 members with the addition of UCLA.

The Pacific Coast Conference competed as a 10-team league until 1950, with the exception of 1943-45, when World War II curtailed intercollegiate athletic competition to a minimum. In 1950, Montana resigned from the Conference and joined the Mountain States Conference. The PCC continued as a nine-team Conference through 1958.

In 1959, the PCC was dissolved and a new Conference was formed – the Athletic Association of Western Universities. Original AAWU membership consisted of California, Stanford, Southern California, UCLA, and Washington. Washington State became a member in 1962, while Oregon and Oregon State joined in 1964. In 1968, the name Pacific-8 Conference was adopted.

Ten years later, on July 1, 1978, the University of Arizona and Arizona State University were admitted and the Pacific-10 Conference became a reality. In 1986-87, the league took on a new look, expanding to include 10 women's sports.

Currently, the Pac-10 sponsors 11 men's sports and 11 women's sports. Additionally, the Conference is a member of the Mountain Pacific Sports Federation (MPSF) in four other men's sports and two other women's sports.

Edwin N. Atherton was named the Conference's first Commissioner in 1940. He was succeeded by Victor O. Schmidt (1944), Thomas J. Hamilton (1959), Wiles Hallock (1971), Thomas C. Hansen (1983) and current Commissioner Larry Scott in 2009.

The Pacific-10 Conference offices are located 25 miles east of San Francisco in Walnut Creek, Calif.
